Redding Introduces Imperial Bio Green Case Lubricant

Cortland , NY.....Lubricating cases for sizing and forming has always been a petroleum-based effort. Redding now introduces a new plant bases sizing lube which is highly effective, completely bio degradable and totally renewable. Imperial Bio Green Case Lubricant sets a new standard for pad applied resizing lubricants.

As hunters are the truly greatest environmentalists our nation has ever known, and we as reloaders are some of the first true recyclers it is appropriate that we continue to look at ways to improve our hobbies and benefit our environment.

Imperial Bio Green Case Lubricant can be use on any pad type lubricant applicator and provides superior lubrication capabilities. It will not stain your brass and offers easy water cleanup making it perfect for use with ultrasonic case cleaners.

Customers should know that Imperial Bio Green Case Lubricant will be available shortly after the SHOT Show in retail distribution and that Redding Reloading Equipment will always endeavor to continue to support popular, shooting sports activities with innovative, high quality reloading solutions.

Redding Reloading Equipment has focused on building the finest quality, American Made products for the precision handloading market since 1946. To find more information and to request a copy of the new 2012 Redding catalog visit:
