## **New Redding Versa Pak Pro The Ultimate Start For New Reloaders**

Cortland, NY..... Redding Reloading Equipment has done a good deed for the new reloader or the experienced reloader looking for the ultimate upgrade to his or her benchtop. The New Redding Versa Pak Pro offers all of the critical items needed to begin your reloading activity with the exception of the press and dies. For years Redding has offered the Pro Pak, a great starter package with either a Boss or Big Boss press. As the company expanded the line of presses and the T-7 turret Press gained popularity, the customer base has repeatedly asked for a full range of starter packages with each press. Rather than create six new Pro Paks Redding has chosen to offer the Versa Pak to add to the press of your choice.

The Versa Pak Pro was originally requested by our European customers looking for the best of Redding in one box so a beginner never needs to buy anything else. It has all the great items contained in the original Versa Pak but with upgrades to a 3 BR powder Measure and the Model 2400 trimmer.

The Versa Pak includes all of the hardware a serious reloader needs without a press and dies at a substantial saving over the cost of the individual items.
